

Rubber foam insulated ducts

F..-SPR-C

Dimensions

Description

The rubber-insulated spiral ducts are ideal for quickly assembled ventilation and air-conditioning systems. Owing to the factory-fitted rubber foam insulation, our time at the construction site is saved. The ventilation ducts are available in 1- and 2-metre sections, and in 9, 13, 19 and 25 mm insulation thickness.

Marking example

Product code: **F09 - SPR - C - 100 - 2**

rubber thickness Q:

- 09
- 13
- 19
- 25

type

sheet:

- galvanised C
- stainless steel K
- aluminium A

diameter

length L:

- 1
- 2

| $\varnothing d_{nom}$ [mm] | πd [m] | $\frac{\pi d^2}{4}$ [m ²] |
